

Instructions to Offerors

In order to open the drawings, offerors should follow the steps below.

1. Set up separate directories for each of the zip files.
2. Extract the RequiredSoftware.zip to a directory.
3. Extract the drawings from the appropriate zip files. As stated above, it is recommended that offerors use a separate directory for each zip file.

Note: Due to size limitations, the Comm Follow-On Drawings have been split into two files. The files entitled “Comm Follow-On Dwgs File 1.zip” and “Comm Follow-On Dwgs File 2.zip” should be extracted into the same directory. Suggested directory C:\Files\Comm Follow-On BACH\Drawings\Comm Follow-On Dwgs

4. Once the drawings have been extracted, double click on “MaxViewF.exe” to open it. Once MaxView is opened, you can open the drawings by opening the appropriate file.

The titles and files are below:
